Age of the South Norfolk Population

Our approach to Temporary Accommodation

- A focus on preventing homelessness
- Reducing demand on TA stock in a climate of increasing pressure
- Having the right TA to meet our demand
- Using our own stock – managing resources flexibly
- Providing value for money TA with the appropriate level of support

Prevention and Reducing Demand

November 2006	November 2016
42 TA customers	8 TA customers

3 bed family or 3 singles unit
Owned by SNC

Early Help in Homelessness Prevention

- 27 services in one location – at SNC
- One referral process
- Multi-agency triage process - to get people the right help
- Joint working toward customer outcomes
- Early identification of those at risk of homelessness

FIRST – Financial Independence, Resilience Skill and Training

- Help Hub - demand for advice on financial issues and independent living skills
- Many TA customers had similar needs
- Reformatted TA provision with FIRST support
- TA residents develop independent living skills and address wider needs
- Reducing time spent in TA and improving outcomes

Considerations

- Flexible Homelessness Support Grant
- Full Universal Credit roll out
- Local funding challenges and knock-on impact
- Continued increase in demand for prevention services
- Homeless Prevention Trailblazer
